

We are excited to share that we are starting a Level 1 Young Athletes program this 2021 spring season in Salem, MA!

Young Athletes (Level 1) is an introductory sport and play program for children with and without intellectual disabilities ages 2-7, focusing on fun activities that aid in the development of early motor skills such as running, jumping, balancing, kicking, throwing and locomotor movements.

Young Athletes offers families, teachers, caregivers and people from the community the chance to share the joy of sports with all children.

Children of all abilities take part and they all benefit!

The current environment we are in has required us to reduce to total number of volunteers we are usually able to have participate with us. With that said, we are asking if parents/caregivers can participate along with their child each week and help them through the activity transitions. If a 1:1 volunteer is needed, please let us know beforehand and we can arrange that on a case by case basis.

To participate, please first complete the online registration form by following the link below or scanning the QR code above.
